Real World Test Results

General Information

Plan Report ID Number:
Developer Name: Networking Technology Inc., dba RXNT
Product Name(s): RXNT Electronic Health Records
Version Number(s): 7.2
Certified Health IT Product List (CHPL) ID(s): 15.04.04.2046.RxNT.72.01.1.221228
Developer Real World Testing Page URL: https://info.rxnt.com/2015-onc-certification

Justification for RWT Approach

The following Real World Testing Plan includes measurements that focus on quantifying the successful utilization of functionality supporting each of the Health IT requirements. This approach allows RXNT to demonstrate that, in addition to functionally meeting the requirements for the Certified EHR Technology (CEHRT) criteria listed in this plan, customers using the Electronic Health Records (EHR) are able to successfully interact with the associated features in order to support interoperability in patient care.

Measurements reported are presented as either the number of instances occurring during the measurement period or as a percentage of the instances that were either successful or unsuccessful during the measurement period. The number of instances allows RXNT to demonstrate the volume of activity being supported by the product for all active customers. Successful and unsuccessful measurements allow demonstration of the reliability of the software as it relates to CEHRT criteria.

Measures Used in Overall Approach

Description of Measurement, Associated Certification Criteria, and Justification

Measurement	Description	Associated Criteria
Transitions of care - send	Report the number of instances where a successful outgoing direct email included an attached XML file.	170.315(b)(1) Relied Upon Software: RosettaHealth HISPDirect (Version 3.0)
Transitions of care - receive	Report the number of instances where a successfully received direct email included an attached XML file.	170.315(b)(1) Relied Upon Software: RosettaHealth HISPDirect (Version 3.0)
Invalid CCD Received	Report the percent of XML files received by direct email and rejected as invalid. The data will be presented as a percentage with the following parameters: **Numerator** - The number of direct emails received that included a XML file and were flagged as invalid format. **Denominator** - The total number of direct emails received that included a XML file attachment.	170.315(b)(1) Relied Upon Software: RosettaHealth HISPDirect (Version 3.0)
View Received CCD	Report the percent of received XML files that were viewed in the EHR after being received by direct email. The data will be presented as a percentage with the following parameters: **Numerator** - The total number of received CCDs that were viewed by a user in human-readable format. **Denominator** - The total number of direct emails received that included a valid XML file attachment.	170.315(b)(1) Relied Upon Software: RosettaHealth HISPDirect (Version 3.0)
Create Single Patient CCD	Report the percent of CCD files successfully sent via direct email using the Chart Summary CCD functionality for a specific patient. The data will be presented as a percentage with the following parameters: **Numerator** - The number of direct emails successfully sent from the Chart Summary CCD tool that contained a CCD file. **Denominator** - The total number of attempts to send a direct email containing a CCD file from the Chart Summary CCD tool.	170.315(b)(1) Relied Upon Software: RosettaHealth HISPDirect (Version 3.0)

Measurement	Description	Associated Criteria
Save CCD to Patient	Report the number of instances where a CCD file is saved from a direct email to a specific patient's chart in the EHR.	170.315(b)(2)
Reconcile Medications, Allergies, and Problems	Report the number of patients who had at least (1) CCD file saved to their chart from direct email and had medication, allergy, and/or problem reconciliation performed.	170.315(b)(2)
NewRx Transactions	Report the number of electronic prescription transactions successfully transmitted with NewRx message type.	170.315(b)(3)
RxChange Transactions	Report the percentage of RxChange requests for which a customer responded. The data will be presented as a percentage, with the following parameters: **Numerator** - The number of RxChange requests responded to, including, approved, approved with changes, and denied responses. **Denominator** - The total number of RxChange requests received.	170.315(b)(3)
CancelRx Transactions	Report the number of electronic prescription transactions successfully transmitted with CancelRx message type.	170.315(b)(3)
RxRenewal Transactions	Report the percentage of RxRenewal requests for which a customer responded. The data will be presented as a percentage, with the following parameters: **Numerator** - The number of RxRenewal requests responded to, including, approved, approved with changes, and denied responses. **Denominator** - The total number of RxRenewal requests received.	170.315(b)(3)
RxHistory Transactions	Report the number of transactions successfully received with RxHistoryResponse message type.	170.315(b)(3)
RxFill Transactions	Report the number of transactions successfully received with an RxFill status.	170.315(b)(3)
EPA Transactions	Report the number of transactions successfully sent OR received with any one of the prior authorization message types (message type beginning with "PA").	170.315(b)(3)
Successful Prescription Transactions	Report the percentage of prescription transactions where a success status is received. The data will be presented as a percentage, with the following parameters: **Numerator** - The number of prescription transactions that were indicated as successful. **Denominator** - The total number of attempted prescription transactions.	170.315(b)(3)

Measurement	Description	Associated Criteria
Errored Prescription Transactions	Report the percentage of errored prescription transactions. The data will be presented as a percentage, with the following parameters: **Numerator** - The number of prescription transactions that were not successfully transmitted (errored). **Denominator** - The total number of attempted prescription transactions.	170.315(b)(3)
Prescription Transactions Including Diagnosis	Report the percentage of successful prescription transactions that include a diagnosis. The data will be presented as a percentage, with the following parameters: **Numerator** - The number of transactions that included a Primary and/or Secondary diagnosis element. **Denominator** - The total number of successful prescription transactions.	170.315(b)(3)
Prescription Transactions Units	Report the number of electronic prescription transactions for each unit type. The data will be presented as follows: **Total** - The total number of successful electronic prescription transactions. **QUOM List** - The complete list of unique values for Quantity Unit of Measure (QUOM) used in successful electronic prescription transactions. **QUOM Usage** - For each unique QUOM, the number of successful prescription transactions that included that QUOM.	170.315(b)(3)
Create Bulk Patient CCD	Report the percent of successfully generated CCD files created from the EHR using the Bulk CCD Export for one or more patients. The data will be presented as a percentage with the following parameters: **Numerator** - The number of successful attempts to generate a CCD file using the Bulk CCD Export tool in the EHR. **Denominator** - The total number of attempts to generate a CCD file using the Bulk CCD Export tool in the EHR.	170.315(b)(6)
Users Accessing Bulk Patient CCD	Report the percentage of users accessing the Bulk CCD Export tool who have the Clinical Administrator permission associated with their user account. The data will be presented as a percentage with the following parameters: **Numerator** - The number of unique users (based on DRID) who have accessed the bulk CCD Export tool and have the "Clinical Administrator" permission on their account. **Denominator** - The total number of unique users (based on DRID) who have accessed the Bulk CCD Export tool.	170.315(b)(6)

Measurement	Description	Associated Criteria
Bulk CCD Scheduled	Report the number of times that a CCD file was scheduled as a recurring export using the Bulk CCD Export Settings.	170.315(b)(6)
Bulk CCD by Timeframe	Report the percentage of CCD files requested using the Bulk CCD Export where a timeframe was specified by date and/or time. The data will be presented as a percentage with the following parameters: **Numerator** - The number of CCD requests that included a specified Start Date, Start Time, End Date, and/or End Time. **Denominator** - The total number of CCD file requests using the Bulk CCD Export tool in the EHR.	170.315(b)(6)
Patient Demographics Recorded	Report the number of patient records where demographics impacting CQMs have been recorded. The data will be presented as follows: **Total** - The total number of patient records for EHR customers. **Date of Birth** - The number of patient records that include the patient's Date of Birth, allowing RXNT to calculate the patient's age. **Gender** - The number of patient records that include the patient's Sex (Assigned at Birth).	170.315(c)(1) 170.315(c)(2)
Patient Encounters Completed	Report the percentage of signed patient encounters (based on service date). The data will be presented as a percentage with the following parameters: **Numerator** - The number of encounters that have been signed (based on service date). **Denominator** - The total number of patient encounters (based on service date).	170.315(c)(1) 170.315(c)(2)
Patient Vitals Recorded	Report the number of patient records where both height and weight were reported together at least once, allowing RXNT to calculate the patient's BMI.	170.315(c)(1) 170.315(c)(2)
Patient Smoking Status Recorded	Report the number of patient records where Smoking Status has been recorded in the patient's Social History as a SNOMED code.	170.315(c)(1) 170.315(c)(2)
Patient Immunization Recorded	Report the number of patient records where an immunization was recorded as administered and included a CVX code.	170.315(c)(1) 170.315(c)(2)
Patient Allergy Recorded	Report the number of patient records where one or more Allergies have been recorded with an RxNorm and/or SNOMED code.	170.315(c)(1) 170.315(c)(2)
Patient Prescribed Medication	Report the number of patients who were prescribed a medication that included an RxNorm.	170.315(c)(1) 170.315(c)(2)

Measurement	Description	Associated Criteria
Patient Medication Recorded	Report the number of patient records where one or more Current Medications have been manually recorded with an RxNorm code.	170.315(c)(1) 170.315(c)(2)
Patient Labs Recorded	Report the number of patient records where at least one lab result was recorded during the measurement period and included a LOINC and/or SNOMED code.	170.315(c)(1) 170.315(c)(2)
Patient Diagnosis Recorded	Report the number of patient records where one or more active diagnoses have been recorded with an ICD-10 and/or SNOMED code.	170.315(c)(1) 170.315(c)(2)
Patient Procedures Recorded	Report the number of patient records where a procedure was recorded as performed, including a CPT, HCPCS, and/or SNOMED code.	170.315(c)(1) 170.315(c)(2)
CQM Report	Report the number of customers who have generated a Clinical Quality Measures report, based on the number of unique doctor companies where at least one user in the company has used the Request Quality Measure Reports for 2023 feature.	170.315(c)(2)
QRDA File Generation	Report the number of successfully generated QRDA files created from the electronic health records (EHR) Quality Measures Report. The data will be presented as a percentage, with the following parameters: **Numerator** - The total number of successful attempts to generate a QRDA file. **Denominator** - The total number of attempts to generate a QRDA file using the Quality Measures Report in the EHR.	170.315(c)(3)
Patient Portal Health Summary View	Report the amount of patients and/or patient representatives who are viewing the patient's CCD human-readable format. The data will be presented as a percentage, with the following parameters: **Numerator** - Out of the denominator, the number of unique patients and patient representatives who generated a Health Summary (CCD) at least once. **Denominator** - The total number of unique patients and patient representatives who have accessed the patient health records (PHR) portal, based on unique user account logins to the PHR.	170.315(e)(1) Relied Upon Software: RosettaHealth HISPDirect (Version 3.0)
Patient Portal Health Summary Download	Report the total number of downloaded health summary (CCD) files by patients and/or patient representatives.	170.315(e)(1) Relied Upon Software: RosettaHealth HISPDirect (Version 3.0)

Measurement	Description	Associated Criteria
Patient Portal Health Summary Email	Report the percentage of successful emails and direct emails of health summary (CCD) files sent by patients and/or patient representatives via the PHR portal. The data will be presented as a percentage, with the following parameters: **Numerator** - Out of the denominator, the number of emails and direct emails that were sent successfully. **Denominator** - The total number of emails and direct emails that a patient or patient representative tried to send from the PHR portal containing a CCD file.	170.315(e)(1) Relied Upon Software: RosettaHealth HISPDirect (Version 3.0)
Patient Portal Health Summary Events	Report the total number of activity events, across all patients and patient representatives, recorded for CCD actions taken within the PHR portal, including logins to the portal.	170.315.(e)(1) Relied Upon Software: RosettaHealth HISPDirect (Version 3.0)
Immunization File Generation	Report the amount of successfully generated immunization HL7 files, created from the EHR. The data will be presented as a percentage, with the following parameters: **Numerator** - The total number of successful attempts to generate an HL7 file for immunization records. **Denominator** - The total number of attempts to generate an HL7 file for immunization records in the EHR.	170.315(f)(1)
Immunization Records Displayed	Report the total number of successfully received immunization records for a patient in the EHR.	170.315(f)(1)
API Documentation Views	Report the total number of times the RXNT Clinical Data API documentation landing page was viewed.	170.315(g)(7) 170.315(g)(9)
"Patient Selection" API Usage	Report the total number of requests received for accessing individual patient data via the API.	170.315(g)(7)
"All Data Request" API Usage	Report the total number of requests received for all patient data via the API.	170.315(g)(9)

Measurement	Description	Associated Criteria
Provider Direct Emails Outgoing	Report the percentage of successfully transmitted direct emails sent out by providers using EHR. The data will be presented as a percentage, with the following parameters: **Numerator** - The number of direct emails that successfully transmitted. **Denominator** - The total number of direct emails sent out by a provider using the EHR.	170.315(h)(1) Relied Upon Software: RosettaHealth HISPDirect (Version 3.0)
Provider Direct Emails Incoming	Report the percentage of successful incoming direct emails received by providers using EHR. The data will be presented as a percentage, with the following parameters: **Numerator** - The total number of incoming direct emails that were successfully received. **Denominator** - The total number of incoming direct emails.	170.315(h)(1) Relied Upon Software: RosettaHealth HISPDirect (Version 3.0)
List of Specialties	Report the total list of unique specialties that are reported by RXNT EHR users as their primary and/or secondary specialty.	Not applicable

Care Settings

Care Setting	Justification
Ambulatory	RXNT EHR is intended and designed for providers and staff in the ambulatory setting, including hospice, urgent care and multi-specialty practices. Our solution is designed in a way that providers and staff can choose the workflow that best fits their practice, allowing a multitude of specialties and practice sizes to be supported. This approach allows RXNT to fully support our customers as their organization grows or their needs change. The "List of Specialties" measurement outlined in the previous sections, will provide the full list of ambulatory settings that are associated with current RXNT EHR customers.

Changes to Test Plan

Measurement	Justification
Patient Labs Recorded	Revised description to exclude lab orders. Lab results are used in CQM calculations.
CQM Report	Updated the description to indicate that data from the 2023 report was captured.
Users Accessing Bulk Patient CCD	Updated the numerator description to focus on the number of unique users (based on DRID) who have accessed the bulk CCD Export tool and also have the "Clinical Administrator" permission on their account.
Patient Demographics Recorded	Updated the description to update 'Gender' to the USCDI term 'Sex (Assigned at Birth)'
API Documentation Views	Updated the sentence structure of the description to improve clarity.
"Patient Selection" API Usage	Updated the sentence structure of the description to improve clarity.
"All Data Request" API Usage	Updated the sentence structure of the description to improve clarity.

Test Outcomes

Measurement	June 1-30, 2024	December 1-31, 2024
Transitions of care - send	1	1
Transitions of care - receive	0	0

List of Specialties

+ Acupuncturist
+ Advanced Practice Dental Therapist
+ Air Carrier
+ Allergy & Immunology
+ Alzheimer Center (Dementia Center)
+ Anesthesiology
+ Anesthesiology - Pain Medicine
+ Assisted Living Facility
+ Behavioral Analyst
+ Chiropractor
+ Chiropractor - Internist
+ Chiropractor - Neurology
+ Chore Provider
+ Clinic/Center
+ Clinic/Center - Adolescent and Children Mental Health
+ Clinic/Center - Adult Day Care
+ Clinic/Center - Adult Mental Health
+ Clinic/Center - Ambulatory Surgical
+ Clinic/Center - Community Health

+ Clinic/Center - Critical Access Hospital
+ Clinic/Center - Dental
+ Clinic/Center - Emergency Care
+ Clinic/Center - Family Planning, Non-Surgical
+ Clinic/Center - Health Service
+ Clinic/Center - Medical Specialty
+ Clinic/Center - Mental Health (Including Community Mental Health Center)
+ Clinic/Center - Multi-Specialty
+ Clinic/Center - Occupational Medicine
+ Clinic/Center - Oncology
+ Clinic/Center - Ophthalmologic Surgery
+ Clinic/Center - Oral and Maxillofacial Surgery
+ Clinic/Center - Pain
+ Clinic/Center - Podiatric
+ Clinic/Center - Primary Care
+ Clinic/Center - Prison Health
+ Clinic/Center - Public Health, State or Local
+ Clinic/Center - Radiology, Mammography
+ Clinic/Center - Rehabilitation
+ Clinic/Center - Sleep Disorder Diagnostic
+ Clinic/Center - Urgent Care
+ Clinical Neuropsychologist
+ Clinical Nurse Specialist - Pediatrics
+ Clinical Nurse Specialist - Psych/Mental Health
+ Clinical Nurse Specialist - Psych/Mental Health, Adult
+ Clinical Nurse Specialist - Women's Health
+ Counselor - Addiction (Substance Use Disorder)
+ Counselor - Mental Health
+ Counselor - Professional
+ Dentist
+ Dentist - General Practice
+ Dentist - Oral and Maxillofacial Surgery
+ Dentist - Periodontics
+ Dermatology

+ Emergency Medicine
+ Family Medicine
+ Family Medicine - Addiction Medicine
+ Family Medicine - Adolescent Medicine
+ Family Medicine - Adult Medicine
+ Family Medicine - Geriatric Medicine
+ Family Medicine - Hospice and Palliative Medicine
+ General Practice
+ Hospice Care, Community Based
+ Hospice, Inpatient
+ Hospitalist
+ Internal Medicine
+ Internal Medicine - Addiction Medicine
+ Internal Medicine - Advanced Heart Failure and Transplant Cardiology
+ Internal Medicine - Cardiovascular Disease
+ Internal Medicine - Clinical Cardiac Electrophysiology
+ Internal Medicine - Critical Care Medicine
+ Internal Medicine - Endocrinology, Diabetes & Metabolism
+ Internal Medicine - Gastroenterology
+ Internal Medicine - Geriatric Medicine
+ Internal Medicine - Hospice and Palliative Medicine
+ Internal Medicine - Infectious Disease
+ Internal Medicine - Interventional Cardiology
+ Internal Medicine - Nephrology
+ Internal Medicine - Obesity Medicine
+ Internal Medicine - Pulmonary Disease
+ Internal Medicine - Rheumatology
